

Harrisville Central School Help Page

If you are having troubles with any of your computer related equipment or software please send an email to "helpme@hcsk12.org".

One of the Technicians will respond to your email in the order it was received. If you see one of us in the hall and explain a problem to us it may or may not get taken care of as we are usually thinking of something else to fix and will probably forget it until we see you in the hall the next time so make sure when you get back to your room to send your request to "helpme@hcsk12.org".

Thank you for your patient in this matter as we are only two strong and only here three days a week,

Monday & Tuesday – Rick Johnston, Friday – Foster Shampine
