

Unknown Speaker 0:01  
Really cool.

Unknown Speaker 0:05  
All right, I'd like to call the meeting to order. Are there any additions to the agenda?

Unknown Speaker 0:11  
Yeah, we added 6.9

Unknown Speaker 0:15  
electrical on the day

Unknown Speaker 0:20  
and they've been wrong. So we actually go to the next pair which rolls electric. So we added that

Unknown Speaker 0:31  
for

Unknown Speaker 0:33  
you know, for the ceiling, lighting and the gym lady. Okay.

Unknown Speaker 0:41  
Anything else?

Unknown Speaker 0:44  
That I would recommend that we that are simple motion to approve items as outlined in 2.0? Yes. Yes, yes.  
Yes. Yes, yes.

Unknown Speaker 1:03  
public participation. Is there anyone on the call? Joey?

Unknown Speaker 1:12  
I will go on to business there is not very hard. It's not a

Unknown Speaker 1:18  
business. So really it remains

Unknown Speaker 1:28  
the first time in seven years.

Unknown Speaker 1:41  
So he comes very, very difficult to put

Unknown Speaker 1:45  
but I feel coming

Unknown Speaker 1:48  
in then I'm even more concerned about 2122 because the federal stimulus money

Unknown Speaker 1:57  
so I don't know Executive Session

Unknown Speaker 2:18  
just to make sure that we here

Unknown Speaker 2:39

we're using it for milk, milk, milk, you're asking

Unknown Speaker 2:50  
the question

Unknown Speaker 2:52  
so almost asking for the state be reversed for this whole extract. It comes through If the President does grant your state and they want this kind of what happens if we get that money? Do we hire the staff back? Are they still gone? Because I've had teachers calling me wanting to know how that's gonna work.

Unknown Speaker 3:16  
Yeah, you know, we're going to approve a budget with their salaries not in it.

Unknown Speaker 3:23  
Mainly because we don't know. So it would be difficult to do that. Not that I would want to look at it, because if we do get the money, again, almost saying that he needs 61 billion from the federal government parties going to cut funding for schools and hospitals. I don't know how you manage that. I wish I had more direction. I just don't know how to really plan for something where I'm not sure if you can take my promise and I just want to make sure that you know where we're in a decent financial spot.

Unknown Speaker 3:58  
Yeah, I understand that. What it is With the federal government 61 what happens to be all of a sudden have a big overflow of money? No, I think we hacked it because it wasn't there when the budget was

Unknown Speaker 4:09  
approved. I think if he gets the money he wants, we're going to take steps. Well, what we're getting is what we're going to get, if he doesn't get the money, he's claiming he's got a full 20% from schools and hospitals.

Unknown Speaker 4:23  
And the back, you have any other input,

Unknown Speaker 4:25  
we can't overspend the amount of what we say. So if we say the budgets gonna be 10 million, can't spend 10 million and

Unknown Speaker 4:34  
however, and right now, the way we're building the budget is that we're counting on was on balance, so that if we don't get the money, then we'll use more fund balance and we appropriate, which we can do, but we can't overspend what the budget is.

Unknown Speaker 4:51  
Okay, so then again, my question is for the teachers that are calling me, you, we don't know what we would do if they got the 69 they So

Unknown Speaker 5:01  
I think we're not going to get any more money than what was already on the table. I don't feel I've never heard that we're going to get more money, we just may stay right where we're at if he gets the money from the federal government, if he doesn't get the money from federal government, he's paying me to 20%. I will tell you that that will that will play a lot of school districts in the state of New York and financial problems. So I think he's aware of that. I think he's really, you know, trying to get the federal government to pull away. I think that's really what this is. What I don't know. And, you know, like Becky said, if we if we say, as a \$10.5 million budget this year, we can't spend more than that.

Unknown Speaker 5:46  
But we just mean we wouldn't use as much fun balance. So

Unknown Speaker 5:54  
ask the question,

Unknown Speaker 5:55  
and it is a legitimate question and I was asked from one of the teachers potentially going to be cut?

Unknown Speaker 6:02  
And I give the same answer is that I wish I had a really solid answer for them and I hate getting people up in the air. But

Unknown Speaker 6:15  
I feel horrible because the first year I really honestly can't give you a legitimate budget that I feel comfortable with. I just don't know

Unknown Speaker 6:22  
that nobody right now, I mean, across the United States, you're right, you know, nobody can kneel down. Right?

Unknown Speaker 6:34  
Well, we are hearing is that volunteer will be worse. Yes. Despite what we get from.

Unknown Speaker 6:42  
That we are also trying to look past just next year, and try and sell ourselves for when that comes.

Unknown Speaker 6:50  
That's a really good point. It's that's that's really loud and clear, is that 2122 and 2223 are not going to be good. Potentially back to where we had the GTA most of you are on board when we had to get lumination adjustment

Unknown Speaker 7:06  
and that was certainly not fun.

Unknown Speaker 7:11  
So I will assure you he's not going to call it that because he took a pretty good ripping for having a GTA for as long as he did. But these look back periods could be the new GPA. right he has four as well three lap now. Three look back periods but April 30 was his first and we slept for now 16 days later he came days later and we still haven't heard anything.

Unknown Speaker 7:40  
budget and that's

Unknown Speaker 7:43  
that's great. Which why it makes it so hard tonight for you guys go through a budget because

Unknown Speaker 7:49  
nothing is everything.

Unknown Speaker 7:52  
But we have to based on executive order and the May 26 and June 2 we have to do the budget hearing The public all absentee ballots, which by the way, was another unfunded mandate, right. So we had a mouth, while we're in the process of mailing all their absentee ballots to every we know, legitimate voter and for school budgets as anybody 18 years or older within the district. So even if they're not registered voters, we slept to give them the school budget. And we're doing the best that we can have great

Unknown Speaker 8:28  
is that it is a you know, something.

Unknown Speaker 8:33  
That's right.

Unknown Speaker 8:35  
That's right. Really, you know.

Unknown Speaker 8:39  
So these cuts are

Unknown Speaker 8:40  
the fiscal stress we're in right now.

Unknown Speaker 8:44  
But also be trying to set us ahead for the fiscal stress for

Unknown Speaker 8:49  
marriage. Yes, that's correct. So it's not just for what we're in right now is for the future.

Unknown Speaker 8:54  
That's correct.

Unknown Speaker 8:56  
Which we don't know. Or assuming it's going to be worse.

Unknown Speaker 9:01  
Everything we hear is going to be worse. But you're right. perish to us. I don't know, maybe the economy booms as soon as they left, like right now, and then we get real luck. But

Unknown Speaker 9:17  
I hope that happens.

Unknown Speaker 9:20  
And then I hope that we better start. So you know, when he's playing 13.1 billion, the government says it's 13.1 billion. They're short. I don't know. I don't care how big economy gets out until you make 13 year chart.

Unknown Speaker 9:37  
That's right. He's way more hands on begging for promises. That's a good amount of that right

Unknown Speaker 9:42  
to go.

Unknown Speaker 9:45  
So and, you know, I guess his defense a little bit schools, school budgets or school expenses are number one on his budget. Most warm weather for New York, so I'm saving anything Oh, yeah.

Unknown Speaker 10:05  
We do we save a little bit but what people don't realize and even Mark today

Unknown Speaker 10:12  
like, how many times

Unknown Speaker 10:19  
Yes. But you know, he

Unknown Speaker 10:25  
he felt we were losing

Unknown Speaker 10:28

because our buses are right and we're not paying bus drivers. But I mean we are but we're not. They're not on the road and we're not getting a reversal. So, so and that's 92% so in our transportation

Unknown Speaker 10:49

because the last quarter

Unknown Speaker 10:55

pay, we're all back

Unknown Speaker 11:00

They know we're not because they said we can

Unknown Speaker 11:02

well transportations based on the expense,

Unknown Speaker 11:05

the expense right but what I'm saying is I would think there'd be an exception to the rule because

Unknown Speaker 11:13

I agree with you and we have ever had this happen before

Unknown Speaker 11:16

where we have closed books and he made that decision for all nursing.

Unknown Speaker 11:22

I thought would be really awesome. I just

Unknown Speaker 11:25

base because it's based on expense and we don't have the expense of living on the road.

Unknown Speaker 11:30

We will still get a salary from paying drivers right. It's just we won't have expense for the sports rounds that didn't happen. The late buses, those kind of extra field trip Ron says

Unknown Speaker 11:50

that's not my thing that was really all about budget. I apologize in some negative but I am it's the first year since I've been doing this that I really am not comfortable with is the best thing we can do to make sure we save the district in the future.

Unknown Speaker 12:13

All right, so nobody came to court.

Unknown Speaker 12:17

There was a

Unknown Speaker 12:19

seven problem

Unknown Speaker 12:27

then 6.4 elections but inspectors I would recommend the resolution of

Unknown Speaker 12:36

your high school principal Snider, Kurt, rabbit, elementary Secretary and the price High School secretary is elections inspectors for tonight's budget.

Unknown Speaker 12:49  
Oh, yeah. I

Unknown Speaker 12:52  
like I read it even like one. What?

Unknown Speaker 12:56  
Yes. That's what they're recommending because Using county inspectors this year. So yes, we have a board resolutions and you guys prove us to count the absentee ballots.

Unknown Speaker 13:11  
So we'll be here.

Unknown Speaker 13:13  
Hello. Wow. We have not gotten that direction yet whether we, whether we have a live stream or not at this one time, we're not really sure.

Unknown Speaker 13:23  
Yes.

Unknown Speaker 13:27  
I'm assuming if anybody questions, you

Unknown Speaker 13:35  
know, obviously unprecedented times and we're not using the county. I don't think anybody is writing it's all it's all district employees are accountants.

Unknown Speaker 13:47  
They all have to be counted and they all have to be in gone.

Unknown Speaker 13:54  
All received by five o'clock. It doesn't even matter the postmark

Unknown Speaker 13:57  
right down by five. You should start coming up.

Unknown Speaker 14:06  
Okay, so

Unknown Speaker 14:12  
we do have that somebody opened it up

Unknown Speaker 14:16  
in periscope

Unknown Speaker 14:27  
Yeah. So have to open it up 155 I get five no 4.1 right.

Unknown Speaker 14:38  
And then close close. It

Unknown Speaker 14:45  
could be really short it could be really long.

Unknown Speaker 14:49  
It could be what we have almost 2000 rows

Unknown Speaker 14:58  
getting some dudes Hopefully doing that.

Unknown Speaker 15:03  
I hope it is it's

Unknown Speaker 15:13  
said

Unknown Speaker 15:15  
yes.

Unknown Speaker 15:17  
Yes, yes. Yes.

Unknown Speaker 15:22  
Have a great night.

Unknown Speaker 15:39  
Yes, yes. Yes. Yes. Yes, yes. Yes. I recommend that you have heard solution improving the bid for general construction and ceiling placement to zero craft four 133 570 degree.

Unknown Speaker 15:57  
So that's all the hallways okay. I'm sorry,

Unknown Speaker 16:01  
Britain and then all LED lights will be put in some

Unknown Speaker 16:08

Unknown Speaker 16:09

second

Unknown Speaker 17:03  
Yes, yes, yes, yes, yes, yes, yes.

Unknown Speaker 17:12  
I recommend that we got resolution approving Nv e dow electrical for the ceiling replacement and gentlemanly lighting for 199

Unknown Speaker 17:24  
to get just in the gym,

Unknown Speaker 17:27  
no, they're gonna do the LEDs in the hallway. And you're gonna do the LEDs in there all the larger all LED lighting.

Unknown Speaker 17:37  
I think it should be lightning cylinder.

Unknown Speaker 17:41  
So it should they're just doing LED lighting and all the hallways, and they're going to do the LED lights.

Unknown Speaker 17:48  
So they're they're not replaced.

Unknown Speaker 17:49  
No. Yeah.

Unknown Speaker 17:55  
So they're

Unknown Speaker 17:58  
lighting lighting.

Unknown Speaker 18:00  
Who is zero?

Unknown Speaker 18:02  
Down electric? electric

Unknown Speaker 18:06  
grid.

Unknown Speaker 18:10  
All right. So ceiling lighting in gym lighting group.
