MEMORANDUM

To: Board of Education
From: Eric Luther
Date: 6/8/2023
Re:

This past month has been a whirlwind of NYS Testing and Regents' preparations. We were able to get through the 3-8 math exams, 3 different Regents' Field Tests in Living Environment, U.S. History and Algebra II. We also were able to complete the new framework U.S. History exam last week. We are still waiting on results from this exam as NYS has not released the scoring rubric for the test at this time.

We also held the Arts Award Banquet and SRA Awards Ceremony which were all well-attended. Congratulations to all of the students who earned awards and were recognized for their efforts! I have also been working on the Master Schedule for the 23-24 and room moves for next year and am planning to meet with staff next week to release information regarding courses being taught and rooms that will need to be moved over the summer.

In athletics, softball and baseball seasons have wrapped up with the boys' and girls' varsity teams qualifying for sectional play and the girls' losing a hard-fought game to Chateaugay in the sectional quarterfinals and the boys' losing to Lisbon in the semifinals. Modified teams just finished this past week with great performances at Hammond. The Spring Athletic Banquet was well attended and it was nice to recognize the hard work of all of our student athletes. It was also nice to recognize the girls' varsity softball team as they earned the NYS Scholar-Team award for having at least 75% of the team having an overall average of 90% or greater. This is the first time in several years that a team from Harrisville has earned this recognition!

I am also working to wrap up soccer schedules and basketball schedules for next year but am waiting for finalized league schedules.

In CSE, we are just about done with all of our annual reviews and we have a couple of new referrals/parental request to complete and also a couple of CPSE transition meetings. I also have Indicator #13 to complete for NYSED over the summer which tracks and monitors our older student's transition plans and activities for post-high school planning. All in all, things are looking good in the CSE world.
