

BOE Student Rep. February

With the end of the 20-Week marking period, and hand out of reportcarss to students. There have been various complaints as to some teachers waiting until the last minute to put grades in. This results in little time for students to remedy their grades.

A teacher on the week of 1/26-1/30, said a word that some students took offense to. These students did not understand the reason as to why the word was said, but they did feel uncomfortable from it.
